HACK TRUMAN - 2nd Place - Truman's Hackathon Event

April 2018

TruOrganizer (C++)

- Collaborated with 2 others to create a scalable collaboration app that creates simple schedules for students based on their classes and clubs and a way to access that of the other students and professors.
github.com/justingalang/TruOrganizer

Activities

ASSOCIATION FOR COMPUTING MACHINERY (ACM), Truman State University

August 2018 – Present

President

- Presented at the *Meet Your Major* freshman event to recruit 25 new freshmen.
- Reframed the direction of Truman's ACM as an organization by pushing changes to encourage independent study and emphasize teaching practical skills such as utilizing github, creating portfolios, and practicing interviewing questions.
- Raised general meeting attendance by 400% by providing helpful and entertaining content.
- Added 3 new executive positions to further the growth of ACM as an influential organization.

COMMUNITY FOR COLLEGE ENTREPRENEURS, Truman State University

August 2018 – Present

Representative

- Competed in a pitch competition with my application idea: Bracket - A social media platform that allows users to create tournament brackets in any subject to be complete and compare with others.

Volunteering

JOHN KNOX VILLAGE FUNDRAISER, Lee's Summit, MO

July 2019

Sales Volunteer

- Raised \$1650 for John Knox Village by advertising and selling raffle tickets.
